

NEWS RELEASE March 2019

15th Festival of Lights 2019: „Lights of Freedom“ from the 11th to the 20th of October 2019

10 Nights. 100.000 sq m art. And a shining diversity of programmes.

The Lights of Freedom are shining in Berlin! The city of freedom will transform into the biggest open air gallery of the world, where we will tell stories together with national and international artists, in celebration of the theme “freedom”:

Impressing and enjoyable, moving, surprising and unexpected. Our stages are the major landmarks, buildings and places of the capital – all in all 100.000 sq m will be displayed with art. The 15th Festival of Lights will be presented by E.ON.

Our language is the light: Spectacular projections, magic 3D video shows and fascinating light installations will illuminate the history of Berlin and its freedom from a new perspective. The capital will light up for ten nights and will send its light into the whole world. It will shine easily across borders and continents, since light speaks all languages.

The several honored Berlin FESTIVAL OF LIGHTS celebrates its 15th anniversary this year. It counts to the most popular light art festivals of the world, and attracts millions of visitors to come to the city of Berlin each year. We expect more than three million light enthusiasts in 2019.

In celebration of the 30th anniversary of the fall of the Berlin Wall, the FESTIVAL OF LIGHTS has chosen “Lights of Freedom” for its artistic light productions. The framework programme consists not only of various LightSeeing tours in new cooperation with GetYourGuide, but also of exhibitions, concerts and events referring to the theme “light”.
